**Implementing the
Lordship of Christ and
the abiding relevance
of God's law for
21st Century Canada**

[Christ] is before all things, and in him all things hold together. And he is the head of the body, the church; he is the beginning and the firstborn among the dead, so that in everything he might have the supremacy. — Colossians 1:17-18

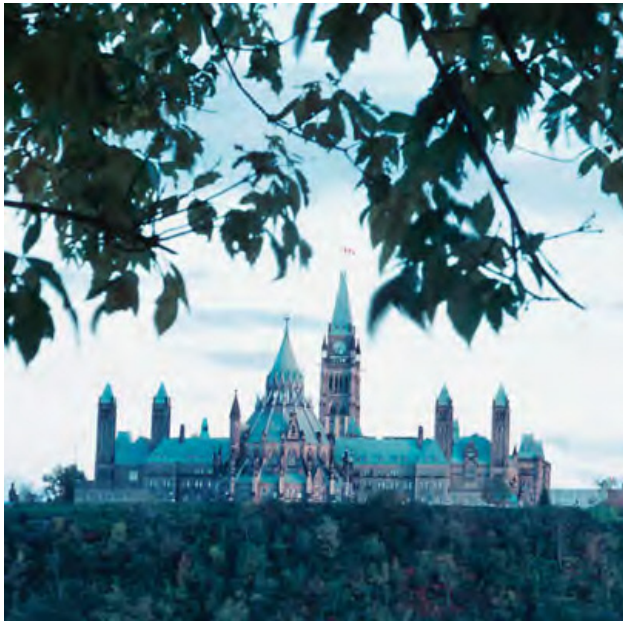

Christian Governance exists to promote explicitly Christian governance in Canada.

Christian governance is about the rule of God's law (true freedom), not the rule of men (tyranny).

Christian governance is a democratic vision: **division of authority** (because God is sovereign) and **diffusion of power** (because man is sinful).

The starting point for a Biblically-based division of authority is:

- Self-government
- Parental government
- Church government
- Civil government

Vision: To help Canada develop a Christian society by affirming and implementing the Lordship of Christ and the abiding relevance of God's law.

Mission: To be God's **PA** (Public Address) System to Canada through: **Practical Apologetics** and **Political Action**.

Practical Apologetics: To educate, train and prepare Canadians to maximize their sphere of influence, and to use their influence to advance God's Kingdom, building a Christian culture in Canada.

Political Action: To contribute to Canada's public policy process with a special emphasis on provincial and municipal levels of civil government.

Practical Apologetics Projects

- Yoke-Bearers — a support partnership with home schooling families, including courses and personal coaching
- Biblical worldview program, including apologetics youth camps and annual conferences
- CollegePlus!
- *Titanic 2012* — *Women and Children First* conference and banquet
- 150th Anniversary of Confederation

Political Action

As a worldview organization, we will tackle all issues, but among those which will receive particular attention are:

- Abolition of human rights commissions
- Self-government under God and ordered liberty over against the messianic state and political centralization (socialism)
- Separation of school and state
- Science- and free-market-based public policy in place of environmentalist religion
